

Derval RENT

Liquid concentrated detergent for coloured washing, no visual brighteners or bleach, for all textiles.

Derval RENT TM D 18/02

Characteristics

- High pigment and soil removal capability.
- Good oil, fat and stain removal.
- Full wash efficiency in the temperature range 40 - 60 °C (104-140 °F).
- Especially well suited for fire brigade clothing, high-visibility safety clothing, clean room clothing, outerwear and mops.
- Particularly gentle through low alkalinity.
- Protects the colours and reflectiveness of high-visibility safety clothing.
- Antistatic.
- Based on raw materials containing potassium.
